

## SOUL ON FIRE

Dressed to the nines drinking cheap wine / it feels so good she does it all the time / ruby red lips stained finger tips / nothing else matters when she's shaking her hips / she doesn't remember a thing / doesn't even know with who or where she's been / Soul on fire she never sleeps / dancing with angels her secrets they keep / no one listens but i hear her shout / a soul on fire is something that you can't put out / Waking up late place in a state / doesn't even have a name to put to his face / barely sixteen oh what she's seen / so many lies she don't know what to believe / she doesn't remember a thing / doesn't even know with her or where she's been

## GARDEN OF EDEN

Lay me down by the water call my name like the first time / if i knew then what i know now i'd never let you leave my side / I need to stand on the edge again and not give a damn if i fall / tempted foolish and innocent the garden of eden calls / I wanna taste it all / How does love burning so bright turn and fade after one night / I believe if you found me you'd never let me leave your side / Now i'm standing on the edge / no more broken promises / no more tolerating fools / it's only when you wait you lose

## LITTLE QUEEN

You wear it oh so well you wouldn't change a single thing / look at you so at ease you do exactly what you please / you're a touch too much when it comes to this / an ice cold smile and a judas kiss / I wanna be good but i don't know how right now / Don't you come to me for sympathy / perfumed hearts and flowers I don't need / you've come to claim your crown but you only bring us down / little miss the queen of misery / You think you know it all no one can teach you anything / you act like you've been made but i won't march in your parade / well you're a touch too much when it comes to this / an ice cold smile and a judas kiss / I wanna be good but i don't know how right now

## DOWN THIS ROAD

Now i can see in the stillness of deceit the only sorry left remains in me / if the heart it dies, leaves the soul unsatisfied / the only sound's the whisper on the breeze / did you think i'd come running coz you called out my name / I've been down this road before and my heart cried out for more / like the sea that craves the shore i've been down this road before / If the thrill of love outweighs the consequence / then why do i feel so bad / why am i chasing dreams that seem so out of reach / can I be happy with what I have / did you think i'd come running coz you called out my name / I tried to hide my conscience but it was waiting in the wings / and i know until forgiven it won't mean a thing

## DOWN AND OUT

Oh child hear me now / there may be time they'll bring you down / don't let them hurt you you can beat them if you try / don't let them fool you or leave yourself behind / Hold out your hand let me lead you astray / close both your eyes i will show you the way / don't say a word just you follow me down and out / Follow me down / Oh child hear me now / there may be times I can't be found / though you cant see me it doesn't mean that i'm not there / when you can't feel love just know it's everywhere

## PLEASED TO MEET YOU

Stone cold sober with a head of wine / the perfect daughter the virgin bride / forgone conclusion that i'll make you mine / your my last order at closing time / I'll be rising as your going down / coming up fighting as you hear the count / I'm black and blue from the bright lights / no more the innocent one / i'm starry eyed and i'm stumbling / close your eyes and i'll come oh yeah / i'm cold water on a count of nine / i'll pick you up just one more time / and it feels so good just to raise your hands / the perfect daughter for a fighting man / I'll be rising as your going down / come up fighting as you hit the ground / We're so pleased to meet you so pleased that you could come / you're here to sign your life away two words and then it's done / I'll be rising as your going down come up fighting as you hear the count

## SOUTHERN BELLE

I won't be stopping here i won't be staying for a moment longer than i need / and i won't be calling you i won't be taking any prisoners when i leave / At dawns first chorus i'll be gone before you get up off your knees / Southern bells ringing out over lights going down /

can't you see me i'm coming / watch me fly - shading south / Last night still on my lips and every mile it steals away the taste of you / i know i'm bitter sweet but i'm the holder of these secrets that i keep / at dawns first chorus i'll be gone before you get up off your knees

## RIVERS AND STREAMS

Oh brother don't you try and look down on me / not when i stand at you door / salvation waits but it's so far out of reach / and i just can't take anymore - what for / Rivers and streams will wash away all that's been / when we stand at the end it won't matter my friend - at all / Oh brother we have got to walk this alone / and keep our sins to ourselves / with every step / we take our futures are told / and i just can't give anymore - what for / Rivers and streams will wash away all that's been / when we stand at the end it won't matter my friend - at all / our hearts are tied but tell me what does that mean / when we stand at the end it won't matter my friend -at all

## ANGEL

Hey angel won't you hear me cry coz i'm reaching out for you now / sweet angel can't you hear my plea won't you carry me to the other side / won't you hold my hand and call my name / help me live again / I tried to put you out i poured water on your flame / but your fire burns to brightly / I watch you rise / Hey angel you are by my side though your many miles away / i won't touch our things they won't move an inch / I wont wish you away / sweet sweet angel it's the little things you do / i do them without thinking and make believe it's you

## PARALLEL LIFE

I've got a parallel life and i'm bigger over their / I've got a bullet proof heart which means i just don't care / which means i do / what i please and i just please me / coz in my parallel life you're the pawn to my queen / We don't dream in colour our black / and white is harmony -yeah / you're northern eyes they take me to a place i long to be / I've got a twenty foot pool on my visa card / i've got a pent house flat on my over draft / i'm like a centre fold on my three piece suit / i've got a parallel life that only you complete

## SWEET MELODY

I see you face through my window / I hear you knocking down my door / When it comes to persuasion / You take all of me and more / You take all of me / I hear your voice in my shadow / And through the darkness you appear / When I'm filled with temptation / You are everything I fear / You are everything / Sweet melody I'll dance if you want to / With your far / away beautiful eyes / Take my hand and I'll dance where you want to / Take me down to your basement of lies / I was a fool I surrender / I'll let you cast your spells on me / I will embrace your black illusion / And let your curses fall on me / Take me down take me down
